

Executive Coaching for Leaders

Executive Coaching is a structured, professionally focused development program for building leadership, decision-making, and management competencies.

Target Group

Executives and senior professionals with current or aspired leadership responsibility.

Focus Areas

- Analysis of professional role and responsibilities
- Development of individual leadership and decision-making style
- Managing leadership and performance accountability
- Navigating professional challenges and transitions
- Sustainable transfer into daily work

Approach

Evidence-based, individualized, confidential. Medical expertise meets leadership development. Not teaching strategy, but enabling execution.

Format

Structured 1:1 coaching, 50 minutes per session, in person or online.

This program is exclusively focused on professional development.
